Advantages

- **Cameras Record and Store Video**
The camera acts like its own DVR so you only use bandwidth when viewing video.
- **No On-site Recording Server Needed**
Connect to individual cameras via the e-Line portal.
- **No Software Installation Needed**
Use an internet browser on your computer, Blackberry, or iPhone.
- **Easy Video Management**
Cloud NVR is network-friendly and user-friendly. IT support is not usually needed.
- **Flexible System Size**
Systems can be 1 camera at 1 location or 1,000 cameras at many locations, all managed through 1 interface. Expand your system as needed.
